**LETTER OF INTENT FOR INDIGINOUS
PRODUCTION OF SOLAR COOKER**

Pakistan Council of Renewable Energy Technologies (PCRET) is a Research and Development organization working under the administrative control of the Ministry of Science and Technology, Islamabad. Its head office is situated at the above-mentioned address. The PCRET is working in the field of Renewable Energy Technologies, and has designed' developed and successfully field tested Solar Cookers. The PCRET now wishes to have a joint venture with private/public entrepreneurs for indigenous production of solar Cookers in the country.

The PCRET, therefore, welcomes the letter of intent to be submitted by willing private entrepreneurs / organizations having well-established production infrastructure and distribution and marketing line. This collaboration shall be executed under the memorandum of understanding to be signed between PCRET and any private / public sector organization for indigenous production of solar cookers and various others RE products. This joint venture will be 100% financed by the willing private public organizations who qualify to serve our requirements. The PCRET will provide technical expertise and will get mutually agreed profit on the sale of the products.

All interested parties are invited to submit their Letters of intent on the above-mentioned address, not later than 15th June, 2010.

(Ashraf Baig)
Director (Admn.)
